

CONSONANT SOUNDS TEST

Instructions for American English Consonants Pronunciation (Articulation) Self-Assessment (Numbers 1 through 26): Say each word. If you have difficulty with the consonant sound indicated in the sample word, "circle" the difficult word and put an "x" in the rectangular box for that sound. The "circled" words will determine if part of your problem comes when you have to say longer, multiple syllable words with the sound in it. Additionally, some common **PROBLEM SOUNDS** for a person from **VIETNAM (Hanoi)** will be indicated for you by **NUMBERS IN PURPLE**.

Some Common **PROBLEM LANGUAGE ERRORS** for a person from **VIETNAM (Hanoi)** will be indicated for you by **WORDS IN PURPLE** .

Be sure that all FINAL POSITION Consonant sounds are put on the ENDS of words.

Unlike Vietnamese where most words do not end in any CONSONANTS, in English it is quite common for words to end in CONSONANT SOUNDS.

A Vietnamese speaker should be careful with the sounds in the FINAL positions of English words. Do not confuse the INCORRECT "p" for a "b," and an INCORRECT "t" for a "d," an INCORRECT "p" or "b" for a "v," an INCORRECT "sh" for a "s," an INCORRECT "sh" or "s" for a "z" or an INCORRECT "sh" for a "ch."

In English, do NOT insert the schwa vowel, "uh," between consonant sounds.

In English, the "t, n, s, z, and l" sounds SHOULD NOT be pronounced with the tongue between the teeth. In English, the tongue should only be out between the teeth when you pronounce the two "th" sounds.

Unlike Vietnamese which has only voiceless plosive and nasal consonants, in English you will need to learn VOICED PLOSIVE sounds like: b, d, g, and j.

In general, a Vietnamese speaker should be careful NOT to confuse an INCORRECT "t" or "s" for a "Voiceless th," an INCORRECT "d" or "z" for a "VOICED th," an INCORRECT "b" for a "p," an INCORRECT "k" for a "g," an INCORRECT "z" for a "j," an INCORRECT "z" or "j" for a "zh," and an INCORRECT "sh" for a "s."

After learning to pronounce one English consonant sound which is surrounded by vowels, you will need to learn how to produce the "s, l AND r" BLENDS, when 2 or 3 consonant sounds are grouped together and each letter keeps its own sound and each sound is pronounced. You should practice the 2 sound blends, first, before proceeding on to the 3 sound blends. English CONSONANT BLENDS are: s-blends (sw, sp, sm, st, sn, sk [sk], sl, spl, skw [sku], spr, str, skr [scr]), l-blends (pl, bl, fl, kl [cl], gl, sl, spl), r-blends (pr, br, tr, dr, fr, kr [cr], gr, spr, str, skr [scr]), and th-blend (thr) and sh-blend (shr).

Review plural words which stay the same for "one" or "more than one," such as "fish." There is no proper English word of "fishes."

You will need to be sure that you pronounce the "-ed" at the end of PAST TENSE VERBS, the "-s" or "-z" for PLURALS, the "-s" or "-z" for POSSESSIVES, and the "-s" for 3RD PERSON SINGULAR words as those sounds convey MEANING in the English language.

Do NOT use the Vietnamese tonal system on English words. Also, do NOT speak in a monotone. Both things will make you more unintelligible.

In Vietnamese, tones are associated with individual words. In English, tone variations are associated with PHRASES and SENTENCES. English INTONATION patterns can change the meaning from a directive to a question to a statement of fact, and intonation can be used to show a variety of emotions and meanings such as surprise, anger, happiness, depression or sadness.
